

**ACCESSORIES**

**Portable Steps**

All steps are 12" deep and 34" wide and are surfaced with slip resistant, grey polypropylene. Step units include two handrails and clamp securely to the stage perimeter. Two, three and four step models include wheels for easy handling.

W" x D" x H"	MODEL	WT
1 Step 36 x 14 x 47	ST1	34
2 Step 36 x 32 x 55	ST2	64
3 Step 36 x 45 x 63	ST3	91
4 Step 36 x 57 x 71	ST4	109

**Guard Rails**

Guardrails are 42" high and include a chair stop plus intermediate rail. Guardrails are secured to stages by a heavy duty clamp, eliminating the need for any tools.

L"	H"	MODEL	WT
30	42	TGRU30	19
36	42	TGRU36	20
48	42	TGRU48	22

**Storage & Transport Caddie**

The convenient caddie will store up to 8 platforms that are 3' or 4' wide. Four swivel casters allow easy movement when fully loaded. A safety stop prevents stored platforms from tipping over when being transported and unloaded.

Capacity - 6 Platforms 96" Long  
Capacity - 8 Platforms 48" - 72" Long

PORTABLE STAGES  
THE FREEDOM TO CREATE

# Finally, a portable stage that is not only

# adjustable & flexible, but easy to set up!

### Unloads Easily

- Eight stage units may be rolled from the storage area to the event site in a single trip. Simply unfold the legs, adjust to the desired height and tilt down until the wheels come into contact with the floor.

### Think Outside of the Box

TransFold™ portable stages give you the freedom to configure the stage to create any performance environment you can imagine. Our convenient 4' x 4' module gives you the flexibility to build the exact size and shape stage that you need to accommodate your event. Unique arc and triangular shaped sections let you design stage sets that stand out in a crowd. With TransFold™, you are the director.

Stage setup is easy and can be accomplished quickly with only one person. Integral wheels furnished on 16" and taller stage units facilitate unloading from the storage caddy and moving into position without any heavy lifting. Once in place, wheels automatically lift from the floor and each stage unit rests securely on non-marking glides. Built-in height adjustment gives you the option to create the ideal configuration for every event. Steps, guardrails and clip-on skirting complete the stage for a safe and professional looking foundation. A 15-year factory warranty ensures that your investment will keep working for you after years of winning performances. And once the performance is over, storage is a snap.

Whether your space is one large multipurpose room or a smaller area, TransFold™ portable stages will fit the bill. Let TransFold™ set the stage. Because in the end, it's the performance that matters.

### Built-In Mobility

- Rolls into position and couples automatically as it is lowered to the floor.

Patent Pending

## The midwest Advantage

- Built-in wheels for easy unloading from the caddy and moving into place
- Quick and easy height adjustment without the use of tools
- Swing away couplings are provided for securing adjacent stage sections
- Choice of carpet, polypropylene or tempered hardboard deck surface
- 1 ¼" diameter, 14 gauge steel legs
- Locking leg braces made from 1/8" thick steel and case hardened spring-bolts for long life
- 1 ¼" diameter, non-marking glides

### Built-In Couplings

- Stage couplings lock into place and rotate out of the way for easy storage.
- Couplings are also provided for setup when platforms are used in a riser configuration.
- There is no need for awkward lifting or crawling under the stage to secure the couplings.

### Simple and Secure Height Adjustment

The legs on dual height stage units are easy to adjust. Telescoping leg inserts are secured to the leg's receiver tubes with clevis pins having spring loaded detentes for added security. Clevis pins are attached to the legs with lanyards for added convenience. Tightening the knob assures a wobble free connection. Special height adjustments are available upon request.

Meets all requirements of  
ICC/ANSI 300-2002:Sec. 303.2-1
